

We have had a fantastic week back following half term. The weather really is helping – when the sun shines it makes everything seem much brighter. Long may it continue?

Our children have managed to fit so much into a week; learning enrichment, fitness both physical and well-being, trips - both face to face and virtual! Oak class have had a fantastic time at High Adventure in Cowling, Birch class have had a virtual visit to parliament and a question and answer session with MPs, Willow have been active ;earners taking every opportunity to be outside and Blossom have been busy over at the park!

It is a busy half term full of events and more learning opportunities for our children. It is our hope that current restrictions are lifted and we can a more normal end to the year. We will keep you informed of more details once guidance comes through.

Have a lovely weekend, enjoying family time in the warm weather. We look forward to seeing you all on Monday.

With very best wishes,
Mrs Gibbons

Sun safety

Please ensure that your child comes to school with a sun hat, sun cream already applied and spare in their book bags if needed. As it is very warm and humid, children should also have a clearly labelled filled water bottle each day. We will ensure that they can refill throughout the day when appropriate.

Please see the link below for more advice on keeping safe in the sun.

Flourishing together....

We have had a truly adventurous time at High adventure!!

We really challenged ourselves and showed true courage when climbing and abseiling. Staff complimented how respectful we were to the staff at High adventure.

High Adventure

On Monday, we went to high adventure for a school trip out. We arrived at 9 o'clock and left at quarter to 5. We did an assault course, archery, abseiling, and climbing. Personally, my favourite was abseiling as it was so much fun and I had never done it before. In archery, we had a go at making a pizza using the colours on the target which was also great fun. Over all I really enjoyed High Adventure.

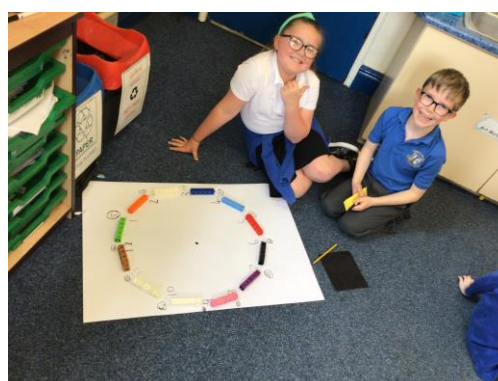

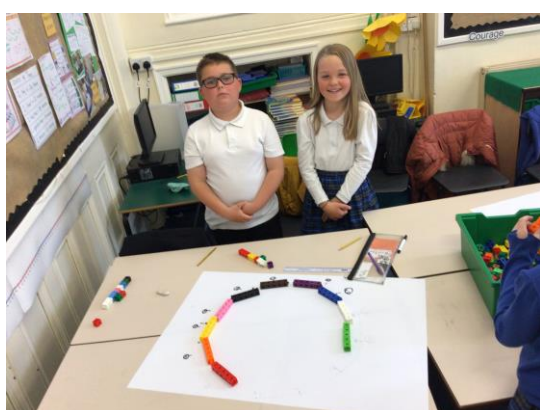

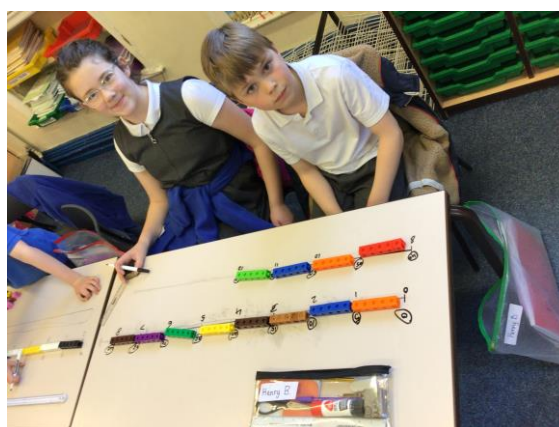

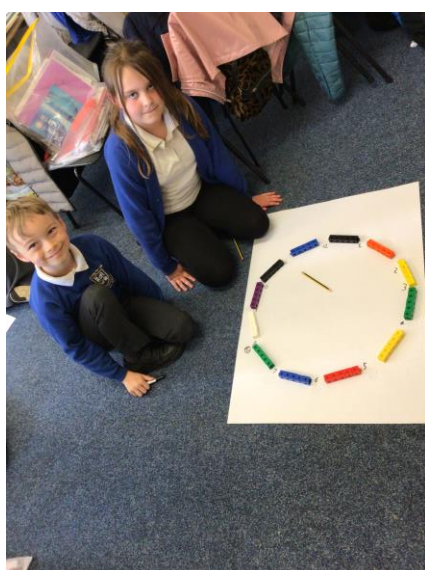

By Florrie

On Monday, we went to High Adventure as a day out. We all arrived at around 9am and left at 4:45. Throughout the day, we did archery, climbing, assailing, team building and an assault course. My favourite thing to do there was the abseiling. At first I thought it would be scary but it was fun. I liked archery as well. We had to pretend to book a holiday based on what colour we landed our arrows on.

Flourishing together....

We love using maths equipment to support and demonstrate our mathematical understanding. Check out our work on time.

Flourishing together....

We have been learning to play rounders, really putting our bat and ball skills to the test. We love our time at Sutton Park.

Flourishing together....

We have been exploring the concept of time, challenging each other on analogue clocks – we are getting very quick at finding the correct time.

In science, we have been focusing on living things and part of this was exploring what was living, dead or never alive. We used our team work skills to flourish together.

Flourishing together....

We had a virtual visit to Parliament this week which also included a question and answer session with a local MP

Here is what the children said about the experience....

"It was super exciting, especially getting to meet Mr Julian Smith. Very informative."
Toby

"I learnt that there are two rooms called the House of Lords (Red) and the House of Commons (Green), like in Harry Potter!"
Flynn

"Very interesting and fun."
Molly

"We learnt about our MP and the different houses of Parliament."
Scarlett

Exciting and interesting!"
Maddie

"The ladies were really nice and I had fun answering the questions. Julian Smith was nice to talk to and answered all our questions."
Harrison

Bobbins – before and after school club

Following our consultation, it was clear that there was a definite need for before and after school care. We based our decision on the questionnaire answers that were received through the e-form. However, upon weekly analysis, the projected figures for the end of May have not yet come to fruition. We really hope that attendance will increase before the end of June. We understand that the current restrictions and continuation of working from home from employers has had a direct impact on the use of Bobbins but appeal to families to support Bobbins whenever they can. We know that this facility is hugely important for families and a real positive for Sutton CE as a school – we want this vital service to continue for our families moving forward.

Summer Holiday
Sport and Wellbeing
With Guest Speakers From
North Yorkshire Sport

Tuesday 15th June

Held Over Zoom at
10:30am or 7:30pm
